How To Know If It's Working

Track ONLY 3 Numbers:

Response Time:

4 hrs → 1 hour

Bookings:

12 → 15

Review Score:

4.3 → 4.5

Fix the WORST one first → Measure weekly → Improve

Simple ROI Calculation Example

Time Saved (hypothetical):

$$\begin{aligned}10 \text{ hours/week} &\times \$5/\text{hour} \\&= \$50/\text{week}\end{aligned}$$

Extra Bookings (assumed):

$$\begin{aligned}5 \text{ bookings/month} &\times \$30 \\&= \$150/\text{month}\end{aligned}$$

Technology Cost:

Free tools = \$0

POTENTIAL ROI: ~\$4,200/year

The FORMULA is what matters, not my example.
